About Us

Since being established in 2009, Mohona Packages (BD) Limited has been viewed to be the ultimate source of backward linkage support to the country's bustling export-oriented RMG sector. We are **FSC, ISO 9001:2015, GRS, Certified, and Sedex & amfori BSCI** audit pass complete compliance accessories manufacturing factory.

We always use the best quality raw materials, which come from the reported company around the world. Our factory utilizes modern technologies and semi-automatic machinery to produce the most beautiful products. The machine is all from Taiwan, China and India. We also established a new state of art automated facility with tools from Taiwan, which produce over 4000 Kilograms of highest-grade quality poly bags.

We got the actual response to the challenges of an economy for the private sector provides the primary stimulus for the company's phenomenal growth. We emphasize ethical business practices for real global needs; attaining the highest standard for our products is imperative. Our human resources are efficiently trying to maintain the modern world standard quality products and customer demands through research and development as a continuous process. We are very sensitive and careful to the environment, greenhouse effects, and child labour, and we fulfil our business mission in the right way that will not harm the fragile world in which we live.

We meet international standards and actively complete the delivery on lead time. We also have a significant poly bag plant and a lot of experience in manufacturing price toys, photo – backboards: and hand tags. We need all kinds of garment accessories as customers' demands. Our professionalism is provided to our valued customers.

We express the most profound gratitude and extend our greetings and congratulations to our entire valued customers, collaborators, suppliers and associates within Bangladesh and abroad who contributed and helped in countless ways to develop and expand Mohona Packages (BD) Ltd. We are indebted to them for their fundamental contribution and continuous support. We have a plan to continue the expansion of new prestigious industries for some economic development of the country and to enter into the global markets in the 32nd Century with our modern technologies and new management strategy.

It is well known to everybody that the locals in our country are primarily illiterate, less developed in the community, lacks care and is neglected in society. Therefore keeping the above in mind and taking different attitudes and inspiring them with courage, we have the management policy to employ more and more Aborigines in our factory for their engagement in the economic development activity of our country. Hope we will succeed in our efforts.

We are trying to ensure the safety and better standard of living of our workers and employees. We firmly believe, without an economically secure life, the quality and skill of human resources can be developed up to the mark. But at the same time, this is our philosophy also to improve the ability and quality of life of our workers and the ordinary people of our country.
